

Over Our Heads

Zero 7

Close your eyes
Can't you see it's burning slow
Fading down the sparks of fire earth bound
Space in two
Warm beyond the love below
Close your eyes
It's time for us to go

Over our heads
Light keeps passing through
Over our heads
Lite from me to you

Falling down
Way beneath the healing skies
Rise and shine
The crying times left behind

Over our heads
All we see is true
Over our heads
Can't you see it too

Over our heads
Light keeps passing through
Over our heads
Lite from me to you
