

## Passing By

Zero 7

I don't think you love me  
Confusion settling in  
I don't think I'll be staying  
Around here, anymore

There's no question that I love you  
But I'm living in my own time  
And here I am debating  
Whether I'm wrong, or right

Who am I to make a judgment of your life?  
I'm only passing by, passing by

All the promises I gave you  
Helped me to survive  
And all the times I wished you'd save me  
You were the love of my life

Who am I to make a judgement of your life?  
I'm only passing by, passing by  
Who am I to make a judgment of your life?  
I'm only passing by, passing by

Who am I to make a judgment of your life?  
I'm only passing by, passing by
