Never consider that you're just a woman in body
Never consider I forget about your body

Body, body, body
Body, body, body, body

Never consider I never think about it daily
Never consider I'll forget the bones in your body

Body, body, body
Body, body, body, body

I think I got to know your body
I think I got to know your body
We'll travel to the dream stay flying
I guess I found me a new high

You took it personal

Body, body, body, body
I think I fell in love with your body
Body, body, body, body
I guess I found me a new high

Free as the wind as I fall out the window
And I think I'm losing my pure
As I fall in my

Body, body, body, body
I think I fell in love with your body
Body, body, body, body
I mad that I just get high

Say hello to your body
When I'm back out on the road
Talk to me with your body
When your words can't anymore
(Words can't anymore)
I wanted your body
But it came with your soul
Mmmm I don't know
Mmmm I don't know
