070 Shake

Would you ever say you wanna
(Want) (oh)
Leave me
(Want) (no)
Only see you in the morning
(Want) (oh) (no)
Fun is kinda coming late for summer
Every day you run away from something
But you just don't know why you hate the summer
But your when I want
You Spilled your wine
Gemini
See both sides
Trade this ring
For peace inside
In plain site
Waiving my arms
Heavens alright
Bones is sore
Fertilized
Face your fears
And face the truth
Me and you
We were one
That was once
But now were two

(Would you ever say you wanna)
Me and you
We were one
That was once
But now were two
Play along
All along
We both did things
We knew were wrong
Leave me
(Am I good at divorces?)
Only see you in the morning
(Want) (oh)
