

Elephant

070 Shake

You don't recognize me anymore
There's things you can't see anymore
I want to make it right, I want to make it right

They won't understand it
Sometimes you just can't stand me
Say things that make you angry
That make you throw a tantrum

2 PM. Thinking 'bout it
Can't seem to forget about it
Last night got really rowdy
I think we should talk about it
I can be your elephant
I remember everything
I'll be your hell- or heaven-sent
Am I under your spell again?

You popped that pill
You're higher
Now I don't recognize it
Don't recognize you anymore
There's things we can't do anymore
They're gonna recognize us
And then they gon' despise us

And they won't understand it
Sometimes I just can't stand you
Say things that make me mad ya
And make me throw a tantrum

Can't seem to forget about it
Last night got really rowdy
I think we should talk about it
I can be your elephant
I remember everything
I'll be your hell- or heaven-sent
