When we went wrong
We tried to hold on
Then we let go
I'm hoping you got
These blessings I sent
Under Allah
I'm a speckle

Ooh, I'm invited
In your world for the night
Don't wanna fuck it up, let's get it right
Don't wanna fuck it up, let's get it right
(Let's get it right)
Ooh, I'm invited
I'm in your world for the night
Don't wanna fuck it up, let's get it right
Don't wanna fuck it up, let's get it right
(Let's get it right)

I wanna drink all night and stay inside
I think I been the problem
There's too many bitches on the island
I need more eyes
I think I got a problem

We link up
We sync up
Nobody's business
Nobody gotta know
Together, twenty toes
I wanna go

When we went wrong
We tried to hold on
Then we let go
I'm hoping you got
These blessings I sent
Under Allah
I'm a speckle
