

## Keep Up

070 Shake

Two is better than one  
I be skipping to three  
Say we done forever  
High five if you leave  
Six sings in your Twitter  
Seven days seven nights  
Put here just like Jesus  
Copped an eighth of that reefer  
Cloud 9 and my team up  
Ben 10 can you keep up

Ben 10 can you keep up  
Ben 10 can you keep up  
Ben 10 can you keep up  
Ben 10 can you keep up  
Ben 10 can you keep up  
Ben 10 can you keep up  
Ben 10 can you keep up  
Ben 10 can you keep up  
Ben 10 can you keep up  
I don't think you can keep up  
I don't think you can keep up  
I don't think you can keep up  
Keep, keep up

I don't think you can keep up  
Laid back with my feet up  
I smoke lucys no reefer  
Join the fam join the fam we could team up  
What the fuck is your purpose on this planet?  
Everything is worthless  
Team effort I don't feel you  
But you def here in spirit  
Don't mind me I'm rhyming  
This was all perfect timing  
I had to get on my grind it was all about timing  
We built up the plan  
I walk around in my city  
I cop juice and lucys they call me the man  
Don't make me laugh with that weakness  
If you start playing I'm leaving  
We just stay up in the winter  
Slept all through my summer

Slept all through my summer  
Slept all through my summer  
Malick out there sipping on something  
Out the 070 Double cup  
No, no boy you cannot come in  
Too much hate yeah not enough flow  
Now it's too much fake niggas all around us  
And it's too many shady niggas not enough sun  
It's too many thangs and not enough enough thugs  
Two is better than one  
Shit it's not enough chips  
Really dripped in the sauce  
Cause it's really not enough chips

Cops come and we run around them  
Run the city they love to doubt it  
Mad men inside of him  
Mad men inside of him  
Mad men inside of him

Mad man mad man  
Scary ass hero all black like I'm Batman  
I ain't got it on me put it on my tab man  
No buses either uber or the cab man  
We was up late till the sun come in  
No sleep you knew what was up  
Slaving those nights cause we knew we deserve it  
070 put up muscle and hustle  
Darkest of dawn and I don't regret nothing  
Hit it from the back she love it she cumin  
This is persistence there's no giving up  
If you stuck hating still wish you good luck  
I see right through you I'm calling that bluff  
We ain't give up when the going got tough  
We just got tougher and kept that shit going  
You gon' stay down while that team keep on blowin

Ben 10 can you keep up  
I don't think you can keep up  
Ben 10 can you keep up
