

# Make It There

070 Shake

Waking up by the trees  
I don't wanna leave  
Something's wrong with me  
Catch my drift?  
Wake up by the leaves  
I don't wanna leave  
Something's wrong with me, something

Make it there tonight, make it there tonight  
Tonight  
Make it there tonight, make it there tonight  
Make it there tonight  
One, one, one time  
One, one, one time  
One, one, one time  
Make it there  
One, one, one time  
One, one, one time  
One time, one time

Did it cause of pity said, "Hello," grab my stuff  
Called my niggas and I left  
I'mma do it for the city for my town  
With the squad on the map and we set  
Oh, you wanna run things when I'm done with ya?  
Hun have fun, that's a bet  
Oh you wanna be a fake mo'fucka for the fame change it up for a check  
God I hope I don't change  
If I roll up in a Civic  
If I roll up in a Range  
Hope I roll up the same  
You do not know my name  
Name tags for the lames  
Cloudy skies, what a day  
All these lonely beds got me restless  
You don't know who to call, get the message  
No problems man, my niggas stay stress-less  
Stay stress-less, stay stress-less

Make it there tonight, make it there tonight  
Tonight  
Make it there tonight, make it there tonight  
Make it there tonight  
One, one, one time  
One, one, one time  
One, one, one time  
Make it there  
One, one, one time  
One, one, one time  
One time, one time

When I was younger Mama told me that  
She wanna live in Texas (Texas!)  
Had a lot of trouble in the city  
It was getting too hectic  
Cyphers in the school skipping class and  
We always acting reckless

Had a teacher always said I wasn't shit  
Now she wanna send a message  
Talking 'bout remember all the old days  
Talking 'bout remember all the lessons  
To be honest, I don't remember  
I left my past in December  
Live in the clouds with the embers  
Mix it all up like a blender  
You can't drink you ain't a member  
Please excuse my temper  
Shawty straight but I had to bend her  
You don't wanna see us on the dance floor  
If you ain't getting lit then you can't come  
I got 99 problems but a bitch ain't one  
I got 99 problems but a bitch ain't one  
I got 070, so a snitch ain't one  
Shorty wanna chase but I'm on the run  
See the colors drippin' down your throat  
And I appreciate you so much more  
Cause you look even better  
You look even better than you usually do  
I think I'm gettin' used to you  
Cause she looks even better, better, better  
Than the regu-regu-regular

Make it tonight, make it tonight  
Make it tonight, make it tonight  
Make it tonight, make it tonight  
One
