

Microdosing

070 Shake

I was just macrodosing you

Microdosing, I was just microdosing you
Microdosing, I was just microdosing you

You're so afraid to damage your image
Ask forgiveness not for permission
You can't erase what's already written

Baby did you forget that meaning meaning meaning

I don't wanna be your everything
Cause I don't wanna leave you with nothing
Cause I don't wanna leave you with nothing

Just one hey we went hey wire
Horns they stick out your halo
Get in your head sentimental
Its bye but can't see you later

Ho ho ho live in the present
There's magic in what you say oh
And I'm doing what I said oh
It's too much bags for me to settle

Baby did you forget the meaning meaning meaning I don't wanna b
e your everything cause I don't wanna leave you with nothing
Baby did you forget the meaning meaning meaning I don't wanna b
e your everything cause I don't wanna leave you with nothing
