Natural Habitat

070 Shake

In new world
Fake world, safe world, she was signed
Take it back baby
You don't know where I've been in my mind
I thought we were fine
Take it back baby
You don't know where I've been in my mind
That you've been in my mind

Ooh
You don't know where I've been in my mind
In my mind
Ooh

It's a mean world
Cold world baby who's to blame
I took a long night drive
105 down the PCH
Won't let your garden die
Girl tonight I'mma make it rain
My natural habitat
I like to live inside your brain

My natural habitat is you
Always lived inside it
You said stick around for once
But it made me feel stuck
We went fast first night
They said step into the light
But I'm married to the night
Leave that bitch and bring it back
Don't know if I'm comin'

We was in love
We was on drugs
I was having fun
It was everything
Turn you on, huh
I was on her
She was on me
That's on everything

Yeah
That's on everything, yeah
It's on everything
She want my last name but I can't give her no wedding ring
I'm way too raged out I walk around wit that Hennessy
Kerosene, Kerosene, Kerosene
Bitch I'm flammable, wow
Just like gasoline, I'm international
I'm doing shows overseas
Just be cautious cuz I walk around with a Glock 40

These niggas copied the swag huh they forging me
I ain't doing that shit if I don't wanna do it, it aint no forcing me
If me and my bitch get into it, I tell that ho to leave
I love that bitch to death but not more than I love my X

It's a X and now my X bitch saw I'm sleep
I'm creepin up the street we four deep and I'm in a track hawk Jeep
I got her location but she ain't got mine cause it ain't no checkin me, yeah

My natural habitat is you
Always lived inside it
You said stick around for once
But it made me feel stuck
We went fast first
They said step into the light
But I'm married to the night
Leave that bitch and bring it back
Don't know if I'm comin'

Don't know if I'm comin'
Don't know if I'm comin'
Don't know know know know know
Don't know know know know know

Don't know if I'm comin'
Don't know if I'm comin'
Don't know know know know know
Don't know know know know know
