

## Rewind

070 Shake

You know you was wrong  
And you know you fucked up when you left me  
And you know that I'm headed so high  
Your new guy, your new guy is going so down  
Your new guy, you can't bring around me  
You can't bring around us  
Cause if you do, you found me  
You know you was wrong  
That's why when you see me on your new TV  
You change the channel  
Cause you know you was wrong  
And now you know that I'm gone  
Oh, I'm gone, I'm so gone  
And you wish  
Oh yeah, you wish that you could return the time  
You wish you could rewind  
You wish you could rewind my mind

My crew is so fucked up  
Take it in and get your doses up  
If they ask you, you don't know of us  
And they'll go, they'll go so hard for you  
Pitty-pitty-pitty  
She been asking why all around the city  
Don't be asking why, I ain't even kidding  
You know what you've done  
Giving me your back cause I don't like the front  
Now you got some offers I don't need none  
You wish, you wish you could rewind the time  
LA come all of the lights  
Smoke it all up til we dry  
We become vamps in the night  
Vamps in the night
