

Sin

070 Shake

I'm sorry 'bout the news
I'm falling out of love
But don't you lose control
Push your buttons
You got way too many
I just want some love
If I can't get plenty

How many times?
Way too many
I just want some love
If I can't get plenty

Yeah

I was doing just fine

Didn't think that you'd lie
Didn't think that you'd

In a dream state
But I'm still awake
Told you that I need some help
Maybe that'll help
Same old song
Different melody
Am I too late?
Am I too late?

If wood could turn to paper maybe we could turn to lovers
Something tells me that we'll be good if we have each other
Every time I come you never leave the same I wonder
Why? Oh why?

Didn't think that you'd lie
Didn't think that you'd

Let's go to Sin City
I ain't talking Las Vegas
Baby you should come with me
I don't care how lost we get

Focus on the pedal
Just enjoy the ride
When no-one is around you
Nobody in sight
Chasing after waters
Chase the moon light
Ooh

Ladies and gentlemen, welcome to my show
