The media will turn us against each other
The devil is out workin' undercover
He's the baddest bitch in your bed
He is the thoughts that are in your head
The differences between us
Keep us together
Yin and the Yang is more than just a symbol
Life is 'bout balance, war and harmony
Can't have one without the other
I think we need each other

Difference between us
It keep us together
Yin and the Yang is more than just a symbol
Life is 'bout balance, war and harmony
Can't have one without the other
I think we need each other
I think we need each other

I wish you saw me in color
I'm sorry you got the worst of me
I left you blind tryna love me
Were you livin' a lie tryna love me? Yeah-yeah

Can't have one without the other
I think we need each other

Difference between us
It keep us together
Yin and the Yang is more than just a symbol
Life is 'bout balance, war and harmony
