

# Ghosts

10 Years

Can you please  
Slow down your motions  
That causing commotion  
I can't keep up with  
The way you're going anymore...

Lay down dead roses  
You've been holding  
And rest your shoulders  
You can't carry the cross  
You've chosen anymore...

You're running through the motions of the emotionless  
You're running through the motions of the emotionless

Stop trying to show  
How to save our souls  
It takes dying to know  
How to live as ghosts

Replay the process  
Calling it progress  
To calm down your consciousness  
But you can not wear this crown  
You've chosen anymore...

You're running through the motions of the emotionless  
You're running through the motions of the emotionless

Stop trying to show  
How to save our souls  
It takes dying to know  
How to live as ghosts

You're running through the motions of the emotionless  
You're running through the motions of the emotionless

The wind blows  
Against the stove  
And leaves the body cold

The wind blows  
Against the stove  
And leaves the body cold

Stop trying to show  
How to save our souls  
It takes dying to know  
How to live as ghosts

You're running through the motions of the emotionless  
You're running through the motions of the emotionless

You're trying to show (You're running through the motions of the emotionless  
)  
How to save our souls  
It takes dying to know (You're running through the motions of the emotionless

s)

Hot to live as ghosts
