

I Remember

10 Years

I can remember when all I had was inspiration
Lost in fantasies, wasted dream, I was chasing
Be careful what you wish for you just might get it
Nothing's what it seems when our dreams wake up and vanish into
the air

I'm hanging on by a thread
Just a memory left for dead and gone forever, gone forever
Can I survive burning lights
Blinded by the bright side that I remember, I remember

We are never what we intend or envision
Only a copy of a compromised creation
Always trying to find paradise in a destination
Nothing's what it seems when our dreams wake up and vanish into
the air

I'm hanging on by a thread
Just a memory left for dead and gone forever, gone forever
Can I survive burning lights
Blinded by the bright side that I remember, I remember
We vanish into the air

I'm hanging on by a thread
Just a memory left for dead and gone forever, gone forever
Can I survive burning lights
Blinded by the bright side that I remember, I remember
We vanish into the air
