

Speechless

10 Years

I pick up the pieces left of our peace, as I tell you, tell you
I'm fine
Somehow, we've managed to survive all the damage, can you tell
I'm telling a lie
Breaking our hearts till death, do us part
I don't want to, but I want you
To live, love, and learn every time we get burned
I don't want to, but I want you to

Just see outside your eyes
As we watch our worlds collide
From the other side, another time

The fire is fading, waiting for us
To make a change
The silence between us feels like your miles
Away, away
Time turns us speechless

Lighting this passion turned us to ash as we tried to hold the
light
Was touching the flame our greatest mistake as we die to feel a
live

Building me up and breaking me down
I don't want to, but I've got to
Find a way in or find a way out
I don't want to, but I want you to
Just see outside your eyes another time

The fire is fading, waiting for us
To make a change
The silence between us feels like your miles
Away, away
Time turns us speechless

The fire is fading, waiting for us
To make a change
The silence between us feels like your miles
Away, away
Time turns us speechless
