

Start Again

10 Years

There's an ocean sized hole in my ego I can't hide
Eating me alive, I'm done
Searching for the light or a sign of life
I'm done

Set me free (Set me free)
Free from myself
It's only when we've lost everything we are
Free to start again
Start again

As these hands of time tick on by the song remains the same
Circling the drain, I'm done

Set me free (Set me free)
Free from myself
It's only when we've lost everything we are
Free to start again
Start again

Start again
Start again

Set me free (Set me free)
Free from myself
It's only when we've lost everything we are
Free to start again
Start again
