

# Vampires

10 Years

We can't stay here with the vampires of our youth  
They'll drag you to your doom  
You can't trust them, they don't love you  
You can't keep them close enough to make them move  
They won't stop till the last drop is draining out of you

Running out of line and out of time  
The shadows crawl across the sky  
These animals won't stop running wild  
And no one here gets out alive

Sharpen your teeth!

We parade the night, too long to survive  
All I see are zombie eyes with no sign of life  
They all want you, they all need you  
And they see you on the dark side of the moon  
They won't stop till the last drop is draining out of you

Running out of line and out of time  
The shadows crawl across the sky  
These animals won't stop running wild  
And no one here gets out alive

Silent saviors look away  
Sharpen your teeth!  
Violent stranger watch you change  
Sharpen your teeth!  
Into your own enemy  
Sharpen your teeth, sharpen your teeth, now!

Running out of line and out of time  
The shadows crawling across the sky  
These animals won't stop running wild  
And no one here gets out alive
