Waking Up

Are you there can you hear me Are you there can you feel me

Just in the way all your fingertips touch me They are healing One day we'll all fall prey

Are you there can you hear me Are you there can you feel me

Waking up good morning to you my dear I'm waking up enduring my biggest fears of Distance away (a weight) distance away

Are you there can you hear me Are you there can you feel me

Waking up good morning to you my dear I'm waking up enduring my biggest fear love
