

# Without You

10 Years

If I beg for mercy would you set me free  
I need to know you will never let me go  
I wanted you less  
You wanted me more than I could afford  
Careful what you wish for

I am brand new now without you  
Nothing I can't do now without you  
Am I right? Am I wrong?  
All the pain goes on and on  
I am brand new now without you

Will you break my heart till death do us part  
My misery just loves your company  
I never wanted to ever want you like this before  
Be careful what you wish for

I am brand new now without you  
Nothing I can't do now without you  
Am I right? Am I wrong?  
All the pain goes on and on  
I am brand new now without you

I feel fine inside your caged life  
Can you tell I'm telling a lie

I am brand new now without you  
Everything I can do now without you  
I was right all along now the pain feels like it's gone  
I am brand new now without you  
Everything I can do now without you  
Now without you  
Now without you
