

Runaway

100 geecs

I run
Caught in a moment
Caught in a dream
But wasn't for me
So I run
Caught in a landslide
Caught in a rainstorm
And this storm won't break
I'll run, faster and faster
I'll run, feel like we're taking this backwards now
I don't want anything else
Only you (Faster and faster)
Only you (Faster and faster)
Only you (Faster and faster and faster and faster)
Only you (Faster and faster and faster and faster)
G-g-g-g-gec

Let's go!
Why you doing this?
You said we'd never run
Now you're talking bad
I'm the setting sun

I, don't
Need you anymore
You think, you were
Everything I wanted
Never thought of you
I don't even care
You think you're always right
I can tell you're always wrong

Whatcha talking 'bout?
Whatcha trying to say?
Are you having fun?
I'm laughing everyday
'Cause

I, don't
Need you anymore
You think, you were
Everything I wanted
Never thought of you
I don't even care
You think you're always right
I can tell you're always wrong

Now you're lying on the floor
What the fuck was that for?
Say you never wanted more than this
That's okay, pussy out, run away
And yeah I understand
But I just think it's fucking gay

I, don't
Need you anymore
You think, you were

Everything I wanted
Never thought of you
I don't even care
You think you're always right
I can tell you're always wrong
