

Anytime

112

Pour another glass, let's enjoy this moment, yeah, yeah
The energy between us is amazing, oh, yeah
I can tell what's on your mind, babe
You're giving me all the signs like
The time, the place, just say when
'Cause baby you are the special occasion

I just wanna celebrate you
Oh, how you shine
When the lights get on, I know babe
You're down to ride
And I'll be right there where you need me
All day, all night
Anytime
We can do it anytime (yeah, yeah)
Anytime

For you baby, I'll clear my schedule
We can catch a vibe or get sexual
Tell me what you like, you're really psycho
Love how we connect on every level
I testify, you're so fine
And I know that it's on my mind
Anytime, any place, just say when
'Cause baby you are the special occasion

I just wanna celebrate you
Oh, how you shine (love the way you shine)
When the lights get on, I know babe
You're down to ride
And I'll be right there where you need me
All day, all night
Baby anytime
Yeah, we can do it anytime (yeah, yeah)
Anytime

Up for you baby, let me clear my schedule
We can do it anytime
Up for your baby, wanna celebrate you
We can do it anytime
Up for your baby, wanna celebrate you
We can do it anytime, anytime

I just wanna celebrate you
Oh, how you shine (girl, I love the way you shine)
When the lights get on, I know babe
You're down to ride
And I'll be right there where you need me
All day, all night
Anytime
Yeah, we can do it anytime (yeah, yeah)

Anytime, anytime
We can do it anytime
Anytime, anytime
We can do it anytime
Anytime, anytime

We can do it anytime
Anytime, anytime
We can do it anytime
