

Your hands full of cards parallel to mine  
With your poker face on  
Forcing me to draw four  
I took, I took, three smarter steps  
Seems as if I won this round  
So I scream it connect four  
But, you say I'm stringing you along

I don't wanna play this game of chess anymore  
Cause everyone knows when your queen is gone you don't last long  
So I keep myself in checkmate love

This is a dangerous game of love  
Accusing you of cheating on us baby  
Cheating on love baby  
And I know that is so dangerous just because I do the same baby  
Cheating on love baby  
Dangerous games, ah baby  
Dangerous games

Every night you and I live a lie lying in bed baby  
Take a lie to the head playing Russian Roulette baby  
How can I guarantee we'll survive playing with fire, huh  
Used to being dangerous, dangerous

I don't wanna play this game of chess anymore  
Cause everyone knows when your queen is gone you don't last long  
So I keep myself in checkmate love

This is a dangerous game of love  
Accusing you of cheating on us baby  
Cheating on love baby  
And I know that is so dangerous just because I do the same baby  
Cheating on love baby  
Dangerous games, ah baby  
Dangerous games

And they say that all is fair  
When it comes to love and war  
I don't wanna play the game no more  
Tell me what we are fighting for  
We have too much to lose  
If we continue keeping score

This is a dangerous game of love  
Accusing you of cheating on us baby  
Cheating on love baby  
And I know that is so dangerous just because I do the same baby  
Cheating on love baby  
Dangerous games
