

Yo, ay, ay, ay, ay, ay, ay, ay  
Ay its T.I.P man, king of the south  
Rubber band man, boing  
With my 4 1-12  
Letting all those suckers for lord know man  
Keep you girl out the club if you want 'em  
Make no mistake we will take your broads

We be rolling with T.I.  
See you come through  
Baby quit your man he be cuffing you  
And we like wow, jeans on you  
Chick got a fat ass what she needs too  
Baby don't care in them streets  
Seeing how bad you wanna give it to me  
I was saying no  
To get in there sweet  
She better know what the rules gon' be

When you stick, when we split ain't no hits  
Won't you come here with me  
I'm a chill, how cite you are  
What you don't know how to let it go  
You're thick, body sick, got that trip  
Keep this between you and me  
You can get it any time you want  
That's one thing you gotta know

If I Hit  
Promise  
I ain't gotta hear nothing from ya  
Yo nigger riding up with that drama  
Saying I done cut this woman  
If I Hit  
Promise  
There ain't gonna be no drama  
Tell you yet, 'cause I think I love 'em  
'Cause you let me bend that over  
If I Hit

Say it, don't flinch, let me shirt this flick  
Wasn't you the one who said you love to drive stick  
Now you wanna front like you're scared of it  
When at the bar you started grabbing it  
I already know how to handle you  
Can do you  
Before I put the hands on you  
I'm a beat that thing  
Like your man should do  
But I don't want a repercussion when we do

When you stick, when we split ain't no hits  
Won't you come here with me  
I'm a chill, how cite you are  
What you don't know how to let it go  
You're thick, body sick, got that trip  
Keep this between you and me

You can get it any time you want  
That's one thing you gotta know

If I Hit  
Promise  
I ain't gotta hear nothing from ya  
Yo nigger riding up with that drama  
Saying I done cut this woman  
If I Hit  
Promise  
There ain't gonna be no drama  
Tell you yet, 'cause I think I love 'em  
'Cause you let me bend that over  
If I Hit  
(2x)

The grey goose make you wanna get loose  
Got your ass bent over in the new Benz coupe  
'Cause the rims same colour as the ride and the roof  
Or maybe 'cause your friend wanna ride with me too  
Maybe it's the way a nigger shine in the suit  
Or a fresh white tee whatever it might be  
A neck like ro or a wrist like freeze  
Rings like those, cufflinks like these  
Baby you ain't never met a man like me  
Turn a 9 to a 10 if you can excite me  
Before I get one, but you get like 3  
Gotta man well you know there's a chance you might cheat  
Brothers gonna come up with plans to fight me  
I'm only gonna tell 'em once I handle business like a G  
You're running with the boldest cannon, I'm gonna pull  
So before you take off you're panties  
We should have an understanding

If I Hit  
Promise  
I ain't gotta hear nothing from ya  
Yo nigger riding up with that drama  
Saying I done cut this woman  
If I Hit  
Promise  
There ain't gonna be no drama  
Tell you yet, 'cause I think I love 'em  
'Cause you let me bend that over  
If I Hit

Body sick  
Gotta come here with me  
112  
We can hit  
Body thick  
Gon' be tripping with me
