

I make you upset
Make you wanna fight
Make you wanna leave
Make you wanna cuss
People will
Make you wanna scream
It don't take much I tell you
They can make you mad
But I do my best to make sure the
Good outweighs the bad

I'm just saying
I like when you're laying
Going over your day and
And you get to the part that hurts you
Those tears start to fall
Don't let me be the cause
I wanna be the thing that makes you happy
So I...

Don't wanna be the one that hurts you
(Oh, no, no)
Don't wanna be the one to cause you pain
(That ain't what I wanna be, no)
Don't wanna be the one that you associate
With whatever made you cry
When you think of me
I wanna make you smile
That's what I wanna be

I wanna be the missing piece
I'm hoping you would at least
Let me be your sunshine
Baby, would you please
I know things'll come your way to throw you off
But the pain you feel I'm hopin' that it's not my fault

I'm just saying
I like when you're laying
Going over your day and
And you come across something that hurts you
Those tears start to fall
Don't let me be the cause
I only wanna be the thing that makes you happy

Don't wanna be the one that hurts you
(Oh, no, no, no, no)
Don't wanna be the one to cause you pain
(That ain't what I wanna be, no)
Don't wanna be the one that you associate
With whatever made you cry
When you think of me
I wanna make you smile
That's what I wanna be

I wanna be everything
That you need and

So much more
(That's what I wanna be, yeah)
That's what I wanna be, yeah
Whatever you feel you're missing
(You don't have to look no more)
I promise you don't have to look no more
'Cuz that's what I wanna be, yeah

Don't wanna be the one that hurts you
(Oh, no, no)
Don't wanna be the one to cause you pain
(That ain't what I wanna be, no)
Don't wanna be the one that you associate
With whatever made you cry
When you think of me
I wanna make you smile
That's what I wanna be

Girl I...wanna...be the...one to make you smile
(That's what I wanna be)
Wanna be your; I wanna be
(That's what I wanna be)
Your; be your
