I Project

I was out for the count, then You took me down
To the river layin' at Your feet (Yeah)
I had no joy, then You showed me grace
Now I know that You'll never leave (Woah)
You gave me hope, You set me free, I know You'll carry me
And I was down for the count, thought there was no way out
I was drownin' in the sea (Yeah, yeah)
You found me (Ooh, woah)

Found me (Ooh, yeah, yeah)
Say You gave me hope and set me free
I know You'll never leave
You found me (Ooh)
You found me

I was down, I was out, say it matter-of-fact
Grade school, I'm the one they used to laugh at (Oh)
I was hurt, found my worth on the Internet (On the Internet)
You pulled up in the fire, I was Meshach
And the billy goat tried to take me from the Lord (Woah)
But I'm worth more, proof is in the holes in Your hands (More)
When You died for me, made me wanna praise in advance
And I know
That it's only You (You)
Hands to the sky, how can I be used? (Used)
Muted all the noise, only You I choose (Choose)
Next thing, Your Holy Spirit showed me what to do
So now I'm Yours forever
It ain't no time better than right now
When Luci try to spin the block, I tell him, "Pipe down" ("Pipe down")
'Cause there ain't nothin' back there for me

You found me

When I get to thinkin' 'bout the grace that You gave
Every debt I can't repay, You come and take it away
Every time I almost drowned, I see Your grace in the wave
Lived my whole life on thin ice, You let me skate anyway
Can't get enough, but You might pick me up
Burdens like mercy, made me murder my sinister side
Could put me in a limp, in Olympics
How I'm weak but I'm strong, how I sleep in His arms
But I'm hype, eternal life vision
Blessed are the poor, I prefer them type bridges (Huh?)
When I forget I'm scarred, I refer to my stitches
I've been healed from the dark, you ain't heard of light switches (Switch)
Every now and then, I feel so lost again (Uh-huh)
Like a villain 'til I'm kneelin' at Your cross again (Oh yeah)

He's my life jacket, toss tried to drown me
Yeah, I was lost, but He found me
