

# Never Give Up

116 Clique

Father, forgive us for we sinned  
Sometimes we jump off the deep end  
T-tell me You'll still be here when life gets hard, yeah, yeah  
All we need is something to turn to  
'Cause these are the moments we learn through  
We're stuck in a system that treats us hard, oh

I said my mama told me that I could never give up (No, no, no)  
And even though it's hard (Come on)  
And we end up with scars, yeah, yeah, yeah (Hey, hey)  
Sometimes you get it, but it feels like it's never enough (No, no, no)  
And even though it's hard  
We come back to the start  
And we can keep it ongoing

Uh, I spend few too many of my nights in the gutter  
I let my actions speak for me, but them joints have a stutter  
Weight of the world, but with my head in another  
I'm tryin' to fit into this system and it feel like street parkin' a Hummer  
But I know God got my story right (Amen)  
I know there's more to life than showin' up in public  
And the mess that I prioritize  
But every time I see what's next gon' hurt  
I stick around and watch the change (Whoo)  
Make a new thing work (Hey, hey)

I said my mama told me that I could never give up (No, no, no)  
And even though it's hard (Ooh, come on)  
And we end up with scars, yeah, yeah, yeah (Ooh, hey, hey)  
Sometimes you get it, but it feels like it's never enough (No, no, no)  
And even though it's hard (Ooh)  
We come back to the start (Ooh)  
And we can keep it ongoing

When I pray I'm asking God for better days (Yeah)  
I don't pray for money, what I want it can't replace (Nope)  
Just a little strength so I can run this race (Yes)  
Cross the finish line, to the divine and I'm with [chase?]  
Thank God for this moxie, He got me off the Oxy  
I know these people mock me  
The audacity, He got me (Oh)  
But if I know God got me, why would I say it softly?  
If you're lookin' for a picture of His grace then tell them watch me (Ooh)  
I'm livin' my life like a [?]  
I'm takin' it back like a repo  
Shootin' my shot for the free throw  
And kneelin' until we all equal  
I'm black in America, I feel hysteria  
They see my people as evil  
[?] wanna fight, but man, it's aight  
Don't wanna do nothing illegal (Woah)  
Heart was heavy like a news report (Ooh, ooh, ooh)  
I just needed true support  
Somebody may be losing more, but tell me what these wounds are for (Ooh-oooh)  
It's okay, mama, it rains  
[?] quit  
I'ma be here 'til the end

I said my mama told me that I could never give up  
And even though it's hard (Ooh-oooh)  
And we end up with scars, yeah, yeah, yeah  
Sometimes you get it, but it feels like it's never enough  
And even though it's hard (Ooh-oooh)  
We come back to the start  
And we can keep it ongoing
