

My Year (This Is Going To Be)

12 Rods

Where did the last years go of my life?
They just disappeared into the candlelight
Did some wrong but a lot of things right
This is gonna be my year

Cause with all my calculations
Everything looks so so clear
This is gonna be my, this is gonna be my year

I learned from those before me
That if you roll the dice
You gotta know when the odds are right
So my losing streak ends tonight

Cause with all my praying softly
All the angels in my ear are whispering
This is gonna be my, this is gonna be my year

Don't need no new year's resolution
I know my time is near
Not talking 'bout world domination
But this is gonna be my year

Cause with all my calculations
Everything looks so so clear
This is gonna be my, this is gonna be my year
Cause with all my praying softly
All the angels in my ear are whispering
This is gonna be my, this is gonna be my year
