```
We walk alone in the unknown
We live to win another victory
Our sacred scars
Show who we are, it's time to face it
We are one
We are one
We are one
We will stand together
Number one
Number one
The chosen ones
We are one
We are one
We will fight forever
We are one and we won't tire
We walk alone in the unknown
We live to win another victory
We are the young dying sons
We live to change the face of history
So be afraid, it's the price we pay
The only easy day was yesterday
So hear our voice
We have a choice, it's time to face it
We are one
We are one
We are one
We will stand together
Number one
Number one
The chosen ones
We are one
We are one
We will fight forever
We are one and we won't tire
We are the bold united souls
We live to win another victory
Our sacred scars show who we are
And tell the story of our memories
Don't be afraid, it's the price we pay
The only easy day was yesterday
So hear our voice
We have a choice, it's time to face it
We are one
We are one
We are one
```

We will stand together

Number one Number one The chosen ones We are one We are one We will fight forever We are one and we won't tire We walk alone in the unknown We live to win another victory Our sacred scars Show who we are, it's time to face it We are one We are one We are one We will stand together Number one Number one The chosen ones We are one We are one We will fight forever We are one and we won't tire We are one We are one yeah! Number one Number one The chosen ones We are one We are one yeah We are one and we won't tire We are one We are one yeah Number one Number one and we won't tire We are one We are one yeah Number one Number one

and we won't tire
