

Looking at you
And all that we've been through
I just can't forget
What's going through your head?
So I read what you left on the bed
Different signs, haven't said
It's easier to
Try to kill my pain,
My pain, I hate
It's a world affair
So then I can't explain
To you, because the truth
Is something you can't take

*Tell me again
What's wrong with me?
Why won't you depend on me now?
Just let it happen again
Tell me again
What's wrong?
That I just don't feel the need to belong
This is no means to an end
I'm not what you see, nooo

Been with a few
Oh but not quite like you
And you're crazy like me
What more can I ask for
So you need more
Everybody gets bored
I like all that I see
It's easier to
Try to kill my pain,
My pain, I hate
It's a world affair
So then I can't explain
To you, because the truth
Is something you can't take

I'll burn you
And turn you
In you all
The others you had left
Alone with
No one is such a shame
You just don't know me yet
And now I think so much about me and you
I couldn't hurt you now
I never got to get up
I promise you

Cuz I'm not what you see
I won't try to be nooo
