Dirty Little Rat

13 ENGINES

Dirty little rat, never could get it straight The man upstairs says he doesn't care If you live 'til daylight

Dirty litlte rat

Get your coat, get your hat

We're gonna take a ride tonight

My sweet baby boy
Born under circumstance
I'm gonna give you all I got to give you a chance

Sweet baby boy You're going to understand Someday you'll be a man

Something inside snapped
I still don't understand
The deal went down, I looked around
I was left holding the bag

Something inside cracked
The deal went down, I looked around
And now here I am
