

Down the myriad timelines of the hidden cabals
Through secret corridors awoken from astral sleep
The dark emptiness of the obsidian-black plateaus
Night-cloaking the occult ageless presence

Carrying the archaic sanguineous secrets
Through clandestine nether-realm labyrinths
Beyond grim morbid marbled palaces
Stalking dark recesses of the visionary mind

Necro-weavers - Apostles of dark Gods
Silent harbingers of old

Earth-holders - Born of the underworld
Shielding heretical codes

It will remain forever in their perpetual shadow
Icy threads of distant reflection
Hidden spells drawn from books of the dead
On pathways of elders obsessed

Cursed to wander
For eons in the dark
Under the aural lights
Guided by the Hellfire
Under the icy moon
In quicksilver movements
Tracing blood-meridians
The black-star in your palm
