

Colossus, the first beast  
Where demons harness the suns  
Heartless star piercing through the black

Beyond, the forbidden planets  
In shadowed synchronicity  
Vortex of godless existence  
Burning like infernos from afar

Shadow point  
Rōsh ha Sāṭān  
Shadow point  
Star demonoir  
Shadow point  
Ghoul perihelion  
Algol, shadow point

Quintessence, the old ones  
Surrounded by darkness absolute  
Entangled twins  
The first star of the gorgon

Beyond, the malignant voids  
In blinding inferiority  
Orbit of deathless persistence  
Striding the diabolic vast galaxies

Shadow point  
Rōsh ha Sāṭān  
Shadow point  
Star demonoir  
Shadow point  
Ghoul perihelion  
Algol, shadow point

Algol, massive and ageless  
Where the towers of the gods cannot see  
Algol, majestic and infinite  
Where the shadows of the gods cannot reach

Shadow point  
Rōsh ha Sāṭān  
Shadow point  
Star demonoir  
Shadow point

Ghoul perihelion

Dark nebula, ancient sun
