

Break the circle, cross that line  
See through the grand illusion  
I will walk with the beasts of cosmos  
Where darkness penetrates all light  
The old orders of the golden occult age

Awake the sleeper, draw that line  
Upon true founding principles  
Gods have seen me walk through fire  
Striding the stars between the voids

Crossing fields of fire  
Carving path in bone  
Passing veils of torment

Eternities without time  
Crossing eternal aeons

Conjurer of the hidden realms  
God devourer  
I am the cardinal directions  
God devourer

God devourer  
Approaching the seven realms

Tetragram consumed in flesh  
God devourer  
I am the equinox of Gods  
God devourer  
By flame, by elixir of death  
God devourer  
Approaching the gates of the seven realms

God devourer  
Spell-fire consume my soul  
God devourer  
I am the ancient incantation  
God devourer  
Oracular abyss unveiled, behold  
God devourer  
Breaching the gates of the seven realms

Break the circle, cross that line  
See through the grand illusion  
I will walk with the beasts of cosmos  
Where darkness penetrates all light

The old orders of the golden occult age  
Shrouded in the dark veils of alchemical riddles  
Symbols of the ancestral saints of the occult  
I am the immortalized path to equilibrium

The names of the arcane Gods, devoured
