

## Me and the Dog Die Together

16

I found you in a cage  
Skinny, grey and sick  
Covered in mange

Worms, fleas and ticks

Me and the dog die together  
We'll be attached forever

Man's best friend

So I brought her home  
Suckled back to health  
Fed her meat and bone  
Forgot hating self

Me and the dog die together  
We'll be attached forever  
Forever

You complete me  
Your loyalty astounds me  
You'll detect my cancer  
Sensing all the sadness

I never knew love until I met you  
If you ever get sick, I'm taking my life too

Man's best friend

Me and the dog die together
