

## Sleep Forever

16

I can't wait until that magical moment  
When I watch this fucking town burn down

You'll never be anything  
Weakness and insecurity  
Destined for fucking failure  
Scared of this reality  
Why?

Please somebody shoot me  
Put me out of my misery  
Please expire  
Hatred burns through my veins  
It's not just you  
It's humanity

Break down and cry  
I don't remember why  
Peeled back of everything  
Life's frustration and decay  
Terrified of everybody  
Now I must destroy you  
Why?

Please somebody shoot me  
Put me out of my misery  
Please expire  
Hatred burns through my veins  
It's not just you  
It's humanity

Break down and cry  
I wish you'd fucking die
