

## Can You Find God?

16volt

visceral stream  
instinctively  
all searching for  
one to believe  
never to leave  
the one with all  
is there a thing?  
humanities king?  
we're waiting for?  
i can't help but doubt it just by the way things are  
hey man can't you live on your own?  
hey man can't you just be alone?  
hey man can't you live your own plan?  
isn't it just enough to be just a human?  
and he will come to save us all  
no matter how far we down we fall  
you know the end is here for us  
so you had better find your god  
it's blasphemy  
to question the thing  
that we can't see  
then i'm already  
so definitely  
going down  
i can't believe  
in these things that you sell so well  
i guess i'll just end up falling my way to hell  
hey man can't you live on your own?  
hey man can't you just be alone?  
hey man can't you live your own plan?  
isn't it just enough to be just a human?  
can you find god?
