

Dissembler

16volt

you are changing
you are unfolding
you will open
we'll see what's inside you

it's a little too late let's throw it all away
you keep on trying to heal things
but we are way past fixing

all left apart, broken down, disassembled

you are in pieces
you are collapsed
you will be open
we'll see inside

it's a little too late let's throw it all away
you keep on trying to heal things
but we are way past fixing
way past fixing
