

## Feel It Through

16volt

Inside  
you have  
your tongue is split in half  
you're a viper in the grass  
you're a viper in the grass  
with poison edges you cut like broken glass

I did it all for  
so whatcha gonna do?  
I gotta get good with you  
I just gotta feel it it through

Covered  
you pass  
you have no class  
you avoid the gun  
you avoid the gun  
with all your bullets you can only make it last

I did it all for  
so whatcha gonna do  
I gotta get good with you  
I just gotta feel it it through

? the pen  
? the gun  
(x?)

Just gotta feel it through
