

## Fight Or Flight

16volt

I find myself in this empty room  
Forced to the corner by an unseen enemy  
I feel the shadows of impending doom  
I have this feeling that this is the end of me  
I only hope that it's fast to go  
This nightmare feels like it's become an eternity  
I can't seem to face my fears for shit  
I try to breathe but i can't get ahead of it

I am falling into pieces  
I am falling into the fray  
I am falling into pieces  
I am in a psychotic state

Heart is racing, i am sweating, shaking, choking, feel like i'm  
gonna die  
Mind is running, dizzy, numbing, full of fear of becoming crazy  
I am feeling creeping slowly coming turning out my insides  
I'm overcome by disastrous thoughts, as they manifest the panic  
inside of my head
