

Hang Your Head

16volt

we're gonna take you down
you are not blind
you see their ways
there is recession in masses of the land today
you seek the reason
you cannot find
where are the leaders of a country that's lost it's mind?
hopeless cause
hopeless cause
they mask the pressure
to cover up their laws
their gonna hang your head down
an invitation to feed their minds
what they don't realize
it's payback time
take it slow, do what we know
the hopeless cause transformed to a better solution
we're gonna hang our heads down
you're gonna hang your head down
we're gonna take you down
we're gonna take you down
