

Imitation

16volt

reflective light this mirror image
if i was born to see then give me sight
they sold the soul before the vision
no time to choose it, foresight for decision
neurotic in a drug filled relation
to choose the imitation
imitation
reflected light
swimming in disease
contaminate with self destruction
mirror the image pay for the release
please take me down before you rule
i'm not the headless cesspool
same person hiding from something
dropped his belief for a heaven and hell
machine for future
design for hire
the soul now golden
the land now broken
shallow head of sight
the handheld image
the structure of chemical function
kill yourself for a sinking few
machine for future
design for hire
the soul now golden
the land now broken
