

## It Turns All Bad

16volt

heaven have you turned away?  
you know everything is getting worse  
and everyday - it all degrades  
turns to gray and i just wait  
hanging on  
every word you say  
and i'm waiting for my angel  
soon she'll be mine  
if you'd ever notice  
if you'd take the time  
to look around you  
it's so sad  
the things once good  
have all gone dark  
and broken down
