

Something Is Coming

16volt

Hiding in the shadows
Along the string and tine
Stranded under fallow
I am paralyzed
I hear fear
Something is coming
Coming near
Something is coming
Shifting shape
Something is coming
Can't escape
Something is coming
I'm writhing now
Something is coming
It whispers out
Something is coming
Skeletons in your head
Wanting out
Haunting you
Skeletons in your head

Warning you
Calling it out

Fibers and dust Inhaled the scream
Under the bed and into the seams
Trembling dread foreboding aloud
Inside the walls it'll never get out
I feel fear
Something is coming
Coming near
Something is coming

Skeletons in your head
Wanting out
Haunting you
Skeletons in your head
Warning you
Calling it out

Something is coming
