

## The Last Time

16volt

Take you on a whisper  
Gilded like a veil  
Breathing in slow-motion  
All the voices you exhale  
Woman like no other  
Colored black and red  
Trying to wish away  
All the voices in your head

You don't seem so divine  
When you're so high  
This will be the last time  
That I will say to you  
That this will be the last time  
I'm not saving you

After visual dreams  
A chill you in a sleep  
Nightmares of your skeletons  
Flood your memories  
Woman like no other

Carried to the grave  
Elemental suffering  
Permanent stay

This will be the last time  
That I will say to you  
That this will be the last time  
I'm not saving you

Wherever you go, there you are  
Wherever you run, it's never too far  
However you pray on death is  
I will not fall for your dreams

This will be the last time  
This will be the last time  
That I will say to you  
That this will be the last time  
I'm not saving you
