Veins

16volt

I come from exploded stars
i'm only dust from afar
i'm only made by my ways
i'll be remembered for what's in my veins

put me down
veins
you get enough?
veins
i know my blood
veins
i will drop you
veins

I'm only known by my words
not for what they say, but for what you've heard
not for what they are, but for what they contain
i'll be remembered for what's in my veins

put me down
veins
you get enough?
veins
i know my blood
veins
i will drop you
veins

all that's mine is with me now
out my mind - in your mouth
i won't stop - no one's safe
i will put you in your f**king place
