Need to take a seat for all this shit I ran up
Doing donut till the tires hit the wires rim studs
Tired up on a Maybach, switched up to the lamps truck
Gah damn I got ash on my Louis sandals
I'm thankin' God, cause my turn ain't gonna worry about nan none
Every time I stood tall they thought I was 6'8''
Used to have none at all now I'm having boku pape
Used to rock Fubu baby now I'm rocking shit too crazy
Hoe just put a spell on me think that bitch got voodoo, baby
Pull out with the baby, K This bitch hitting lowercase
Walk em down and overkill 15 shot right to your face
The way we did his dog they don't come outside til this day
If I see lil bro one more time I'll throw all this shit away
