

# Never Been The Same

1900Rugrat

Went dropped 20 on my wrist for all the times they hated  
Bitch I might just need a stroller, how I'm pushing baby  
Went from hopping out the store to hopping out the range  
Started talking to the mic cause they ain't feel my pain  
Smoking dope and pushing bows, how I keep insane  
Walking through the rain, now I'm up with the same gang  
If you my brother then we damn near got the same name  
They playing with two they playing with me and that's on everything  
Took a flight to the city smoking strains  
I swear I ain't been the same since they buried gang  
I swear I ain't been a same since they buried gang  
I swear I ain't been the same since they buried gang  
I swear I ain't been the same since they buried gang  
I swear I ain't been the same since they buried gang

I remember smokin' dope on the post, we were broke  
Now I countin' up these rolls, I can't help but think about bro  
In the booth shedding tears, that's my only way to cope  
I just wish lil bro was here that's why I'm steady smokin'  
I just wish lil bro was here why I'm steady smokin'  
I just wish lil bro was here why I'm steady smokin'  
76 gone hit his mouth gone need more than a dentist  
The way I flipped that bitch, would've thought she was a gymnast  
I do dirt on my own, God my only witness  
This shit I'm serving strong, this what kill Whitney  
I don't want no 9 milli, that almost kill 50  
When I pop out, ain't no almost this shit lethal  
When I pop out, boy, my pockets filled with dead people  
They rapping, don't scare nobody, we really kill people  
When it's like 20, on my wrist, I all the time
