

# May I Take A Giant Step

1910 Fruitgum Company

I remember how it started  
On a sunny summer's day  
I was looking out my window  
All the kids were out to play

Then she said, hey  
Let's play May I  
Out into the street I came  
Ever since that sunny morning  
Nothing has been quite the same

May I take a giant step into your heart  
May I give you love and sweet affection  
May I take a giant step into your heart  
So that you will look in my direction  
May I take a giant step into your heart

Though I may be getting older  
May I's still my favorite game  
Girl, I got to have your permission  
If our need's to be the same

Show me if you really want me  
Show me if you really care  
Give me just a little sign, girl  
Make me feel you want me here
