

## Verdun

1914

Like scum of earth  
Like dust on shoes  
I seethe walls of  
Fort Douaumont  
Despair  
Despond  
Despair  
Despond

The shrapnel rain wrapped me  
It falls hard washes me away  
My world remained without light  
The leaden clouds filled the sky

Got the light?  
And woke up dead  
God of light?

You will be exterminated  
Don't even try  
Your life will be trampled down  
In Verdun's mud  
Fairness does not exist  
And you're just a piece  
Of meat  
In the grinder of senseless war

Got the life?  
Cross the line  
God the life?
